## **Instructions for Using this Record Book**

This record is designed to be the place for you to keep records on your animal projects. Read through the book carefully and complete all sections requested (for example, project planning, feed and health care purchases, supplies and tools, results from shows, and a financial summary). Do not leave any sections blank unless they do not relate to your project animal. It is important that you do your own work, but ask your 4-H leader, Extension Agent, parents, or other 4-H volunteers for help when you do not understand something.

This project record book is for record-keeping only. Information about how to raise these animals can be found in various 4-H Project Guides. Copies of project guides may be obtained from your local Virginia Cooperative Extension office.

1. Read through this book and familiarize yourself with the kinds of records you will need and where information should be recorded. Discuss the book with your parent and/or 4-H leader.
2. Complete essential information when you first start your project, such as the cover page and the project planning page. Share your goals with your 4-H leader.
3. Keep your records up to date. Record information as it occurs. Consider setting aside specific times during the project when you will work on your record book.
4. Write neatly and legibly. Use only one color ink.
5. Include at least one photograph of you with your project animal, but do not include more than two pages of photos. Additional clippings should be displayed in a scrapbook, not this record book.
6. Maintain your book in a 3-ring notebook/binder or folder.
7. Write a project story that captures what happened during your project. Discuss your goals, your activities, your challenges, and your accomplishments. Project stories must be at least five sentences; more experienced 4-H members' stories should be more in depth.

## Equipment and Supply Inventory

At the beginning of the 4-H year take an inventory of what equipment and supplies are on hand.

Add new equipment or supplies you purchase to the list. We realize that often time equipment is shared between 4-H members. Please estimate a cost value for any shared equipment.

( Ex. 1 set of clippers shared between 3 members  $\$250/3 = 83.00/\text{each}$ )

Amount and Kind	Already Owned or Purchased	Purchase Price
<i>Example: 3 Rope Halters</i>	<i>Already Owned</i>	
<i>1 Feed Pan</i>	<i>Purchased</i>	<i>\$10</i>

# How to Calculate Monthly Cost of Feeds

( complete this page for one animal)

## Grain

Cost of a bag of grain: \$ \_\_\_\_\_ ÷ \_\_\_\_\_ lbs in the bag = \$ \_\_\_\_\_ per lb

Amount fed: \_\_\_\_\_ lbs per day X \_\_\_\_\_ days (in month) = \_\_\_\_\_ lbs

Monthly cost of grain: \$ \_\_\_\_\_ X \_\_\_\_\_ lbs =

(Cost per lb grain) (Total amount fed) (Monthly Cost of Grain)

## Supplements (additives for increasing grain, etc..)

Cost of package: \$ \_\_\_\_\_ ÷ \_\_\_\_\_ oz or lb. in container = \$ \_\_\_\_\_ per oz or lb.

Amount fed: \_\_\_\_\_ oz or lb. per day X \_\_\_\_\_ days (in month) = \_\_\_\_\_ oz or lb.

Monthly cost of supplements: \$ \_\_\_\_\_ X \_\_\_\_\_ oz or lb. =

(Cost per oz or lb. ) (Total amount fed) (Monthly cost of Supplement)

## Hay

Cost of a bale of hay: \$ \_\_\_\_\_ ÷ \_\_\_\_\_ lbs per bale = \$ \_\_\_\_\_ per lb

Amount fed: \_\_\_\_\_ lbs per day X \_\_\_\_\_ days (in month) = \_\_\_\_\_ lbs

Monthly cost of hay: \$ \_\_\_\_\_ X \_\_\_\_\_ lbs =

(Cost per lb of hay) (Total amount fed) (Monthly Cost of Hay)

## Feed Tag Information

**Please attach a tag or label from one feed being used for your market beef project.**

**If a home-made mix is used please describe the mix on the back of this page.**

1. What production level or type of animal is this feed designed for?

*(Ex. market animal, lactating animal, growing animal, maintenance, etc....)*

2. What is the Crude Protein level of this feed?

3. What is the main ingredient in this feed?

*(Hint: if the answer is not clear, it's probably the first ingredient listed.)*

4. Is this a medicated feed?

## Breeding Heifer Production Record

### Rate of Gain

It is important to monitor the rate at which your heifer is growing to make sure she achieves her full production potential. It is a good idea to measure rate of gain several times a year.

Pick one month to measure your heifers' rate of gain.

Heifer Name	Start Date	End Date	Pounds gained	Rate of Gain
	_____	_____	<b>Weight-starting weight</b>	<b>Lbs gained ÷ days in month</b>
	<b>Start Weight</b>	<b>End Weight</b>	_____ - _____ = _____	_____
	_____	_____		

## Market Beef Production Records

A	B	C	D	E	Feed efficiency Conversion (E ÷ C)
Animal ID	Ending Weight	Total Pounds Gained (A-B=C)	Total Days of Feed	Total pounds of feed the animal ate	
	Beginning Weight	Average Daily Gain (C÷D)			

## Carcass Data

\*\* Please complete this section if your animal's carcass was evaluated. Fill in areas where you received data\*\*

Animal ID	Carcass Weight	Quality Grade	Backfat (Inches)	Rib-eye Area (REA)	Yield Grade	Percent Retail Product	Carcass Value

**Average Daily Gain**—This is the average amount of weight your market beef animal will put on each day. It is calculated by taking the current weight—beginning weight and divide by the number of days the animal has been on feed.

**Feed Efficiency**—The measure of how well an animal converts the nutrients in the feed they eat into muscle & fat.
